PROFILE

I build complex interfaces, admin dashboards, real-time AI tools, and cross-platform apps. Strongest in React and Vue ecosystems, with a recent shift toward Next.js, Supabase, streaming AI, and React Native apps shipped to the stores. Most work sits at the intersection of deep integrations, multistep validation, CMS tooling, and dense admin UX.

EXPERIENCE

Senior Frontend Developer

Kalyna Solutions · Mar 2023 — Present

Zaporizhzhia, Ukraine

- Next.js (App Router), React, TypeScript — production features end-to-end
- Real-time chat, SSE / AI streaming UIs, admin dashboards, React Native apps
- Supabase — auth, Postgres, Realtime, Edge Functions, migrations, cron
- REST APIs, webhooks, and third-party integrations across the stack

Frontend Developer

Academ Web Solutions · Jul 2020 — Feb 2023

Zaporizhzhia, Ukraine

- Vue.js + Laravel client projects — responsive UI and reusable components
- Pixel-accurate implementation from Figma across multiple products

Product Developer / QA / Support Lead

SQURO · Jan 2011 — Feb 2019

Zaporizhzhia, Ukraine

- Full product lifecycle — prototyping, specs, A/B tests, SEO, support leadership
- Agile delivery (Scrum / Kanban) with cross-functional teams

CORE STACK

React & TypeScript · Next.js & Nuxt.js · Vue.js · React Native & Expo · Supabase · Tailwind CSS · Vercel
AI SDK & OpenAI · Stripe · WebSockets & SSE · Laravel-integrated SPAs

FOCUS AREAS

- Complex dashboards & admin panels — owner CMS, learner dashboards, Vue micro-frontends in monoliths
- Multistep forms with branching validation — insurance quotes, enrollment, checkout flows
- Realtime & AI — streaming chat, voice AI, tool/widget-driven assistants, MCP-style integrations
- Content management — catalogs, marketing builders, SEO-heavy SSR products, media pipelines
- Mobile delivery — App Store & Google Play releases, EAS builds, OTA where applicable
